

# Process for submitting a system for STS certification

---

1. Visit the STS website at [www.sts.org.za](http://www.sts.org.za)

2. select the 'More' tag and then the 'Certification/Certification Process'

### 1. SUBMIT YOUR METER FOR TESTING AND CERTIFICATION

For purposes of submitting your equipment for STS compliance you will need to comply with the terms of the test specification. The STS Compliance Test Specification is divided into a number of sections to enable the testing and certification of STS equipment in a variety of configurations. In most cases any item of equipment, such as a meter or a vending system, would need to be tested and certified according to one or more sections of the CTS. The introductory part of the CTS, entitled "STS531-0, Quality Plan", gives an overview of the compliance test concept and indicates which parts of the test specification are applicable to various system configurations.

- Download a copy of the Test Specification
- Download a copy of the test process

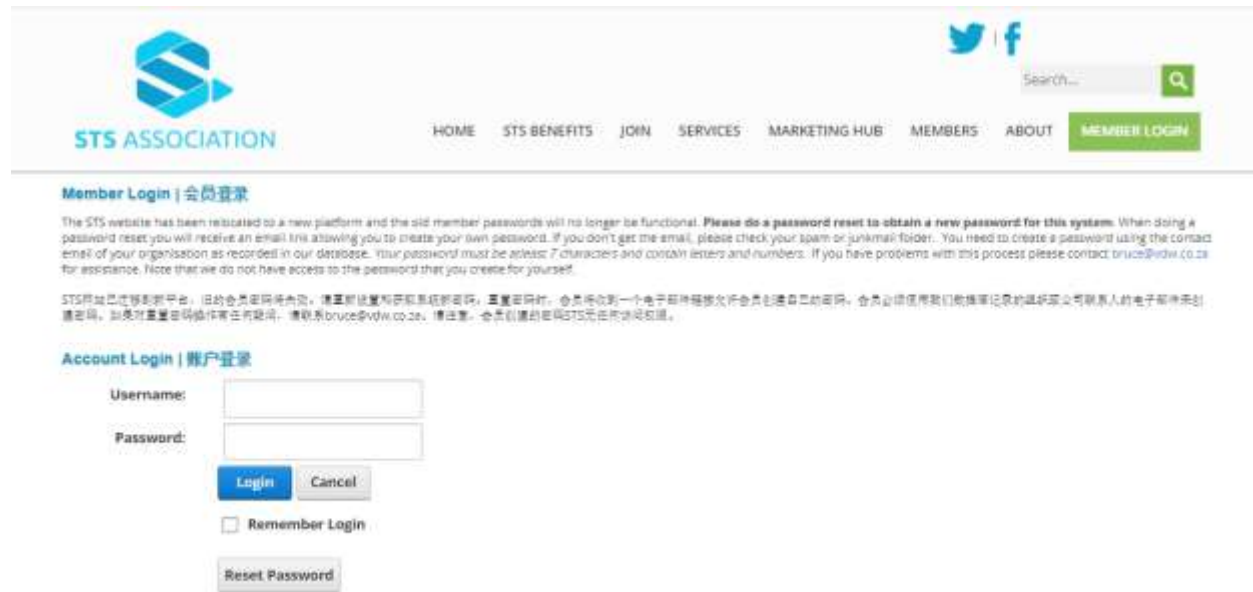

Notify the STS Test Centre of your intention to submit equipment for testing by completing the following order form.

- STS Test Centre Quotation Request Form

After submission of the order form you will receive an email with the delivery address and additional instructions for submitting your equipment for testing to the STS Test Centre. Courier costs will be for your own account.

If the equipment is approved you will receive a certificate of compliance by email and your equipment will be listed as compliant on the website of the STS Association.

### 3. complete the Login process

### 4. Download a copy of the CTS test specifications if you have not previously done so. These are the STS531 set of documents found under the above section.

5. Test your meter/POS according to the specifications before submitting the meter or vending software for certification.

6. To see which tests/documents you need to use for your meter/vending system, go to the Specifications Selector link and download the tool:

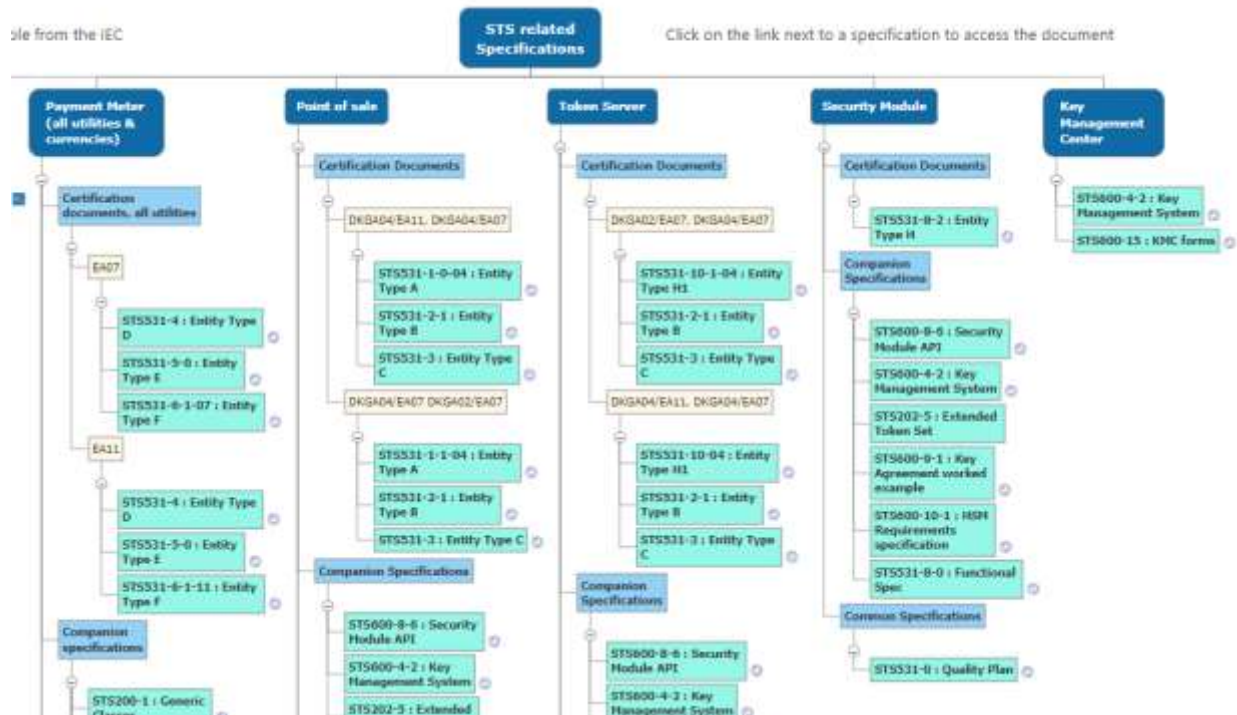

This tool allows you to see which specifications are relevant to your product.

- Home
- Who Are We
- Benefits of STS
- Tools
- Services
- Membership

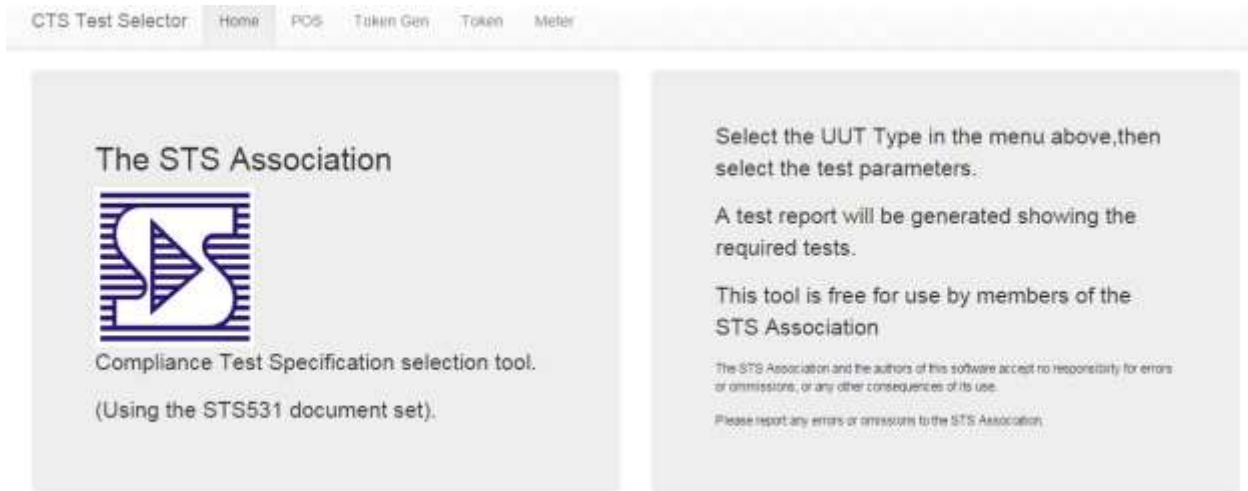

### STS SPECIFICATION SELECTOR TREE

- Download the Specifications Selector Application

7. Then go to the test selector tool under "Tools/CTS Test Tool" in the main menu bar:

This tool allows you to select which product you wish to test, along with which options your product supports. The tool will then generate a report showing which documents, and which tests, are relevant for your product for certification.

7. Once you have tested your product for compliance, you may then complete a STS Test centre services order form (Request a quotation to test a Vending System or Meter). This may be found under “More/Certification/Request a Quotation...”

I provide notice of our intention to submit equipment for STS compliance testing. Please provide me with a quotation of the costs that v the nature of the equipment that we are about to submit. We are aware that the equipment submitted for testing will be retained by th

### STS Test Centre Quotation Request Form

Company Name: \*

Name of contact person: \*

Phone number of contact person: \*

Email address of contact person: \*

Description of equipment to be tested: \*

#### 8. Complete the order form

You will receive an email with the quotation for the testing.

#### 9. Select a test house to submit your product to.

10. Prepare 7 meters (or one vending system) as specified in the CTS test documents. These parameters are specified at the front of the CTS test documents under 'Equipment to be submitted'. Note that each entity type to be tested will have different requirements. So for example, a payment meter will be tested according to the requirements for an Entity type D, E, and F. This means that the documents required will be STS531-4, STS531-5-0, and STS531-6-1-07 (for EA=07) or STS531-6-1-11 (for EA=11). Each of these documents will have a section entitled 'Equipment to be submitted' indicating the setup and quantity of meters to be submitted. A sample is shown below:

**3.3.2 Equipment to be submitted**

The following equipment is required for certification for meters supporting EA=07:

1. 3 Meters loaded with following DITK: FFFFFFFFFFFFFFFF<sub>16</sub>. The meter's entire TID stack shall be preloaded with the TID 5A45A1<sub>16</sub>; this TID corresponds to the token issue date and time of 2004-04-01 09:05. The meters shall be referred to as UUT01, UUT02, and UUT03.
2. If the payment meter stores its manufacturing date in non-volatile RAM and uses this to determine the validity of a token, then the meters submitted must have this date set to 1st January 1993 00h00.
3. The meters, labelled "Entity Type E - UUT01-07, UUT02-07, and UUT03-07" , shall have zero credit loaded.

The following equipment is required for certification for meters supporting EA=11:

1. 3 Meters loaded with following DITK: FFFFFFFFFFFFFFFF<sub>16</sub>. The meter's entire TID stack shall be preloaded with the TID 5A45A1<sub>16</sub>; this TID corresponds to the token issue date and time of 2004-04-01 09:05. The meters shall be referred to as "Entity Type E - UUT01-11, UUT02-11, and UUT03-11".
2. All meters shall have zero credit loaded.

11. Meter Marking table:

Labels for the submitted meters are shown below:

Entity types and related documents

Entity Type	Product type	CTS test document	Description
D	Meter (all utilities)	STS531-4	Meter - TCT=01 or TCT=02
E	Meter (all utilities)	STS531-5-0	Meter - TCT=01 or TCT=02
F	Meter (all utilities)	STS531-6-1-07	Meter using EA07
		STS531-6-1-11	Meter using EA11

Setup values - meters supporting EA07

The TID value in all the meters must be 0x5A45A1

Entity type	Meter labeled	Key (DITK)	Credit loaded in the meter sample	Document
D	D - UUT01-07	FFFFFFFFFFFFFFF	Full credit that the meter supports	STS531-4
E	E - UUT01-07	FFFFFFFFFFFFFFF	Zero credit	STS531-5-0
E	E - UUT02-07	FFFFFFFFFFFFFFF	Zero credit	STS531-5-0
E	E - UUT03-07	FFFFFFFFFFFFFFF	Zero credit	STS531-5-0

Certification submission guidelines Edition 1.4 2022

F	F - UUT01-07	1111111111111111	Zero credit	STS531-6-1-07
F	F - UUT02-07	1111111111111111	Zero credit	STS531-6-1-07
F	F - UUT03-07	1111111111111111	Zero credit	STS531-6-1-07

Setup values - meters supporting EA11

The TID value in all the meters must be 0x5A45A1

Entity type	Meter labeled	Key (DITK)	Credit loaded in the meter sample	Document
D	D - UUT01-11	FFFFFFFFFFFFFFFFFFFFFFFF	Full credit that the meter supports	STS531-4
E	E - UUT01-11	FFFFFFFFFFFFFFFFFFFFFFFF	Zero credit	STS531-5-0
E	E - UUT02-11	FFFFFFFFFFFFFFFFFFFFFFFF	Zero credit	STS531-5-0
E	E - UUT03-11	FFFFFFFFFFFFFFFFFFFFFFFF	Zero credit	STS531-5-0
F	F - UUT01-11	11111111111111111111111111111111	Zero credit	STS531-6-1-11
F	F - UUT02-11	11111111111111111111111111111111	Zero credit	STS531-6-1-11
F	F - UUT03-11	11111111111111111111111111111111	Zero credit	STS531-6-1-11

Complete the annexures at the end of the CTS test documents and send them to the selected test house, along with the product manuals. A sample of an annexure is shown below (for a vending submission).

**Note: all meters must be marked as per final production units (company, product name/model no) – do not send test samples with no markings.**

**All vending systems must show the product name/model number, and software version.**

## 6 Annexure A.1 – Entity A Additional Information

**Table 2 - Entity A Supplier Submitted Information**

1.	Manufacturer:				Submission Date:	
2.	Model:				Version Number:	
3.	TCTs supported::	01	02	(Tick what is applicable)		
4.	Is Key Rollover Supported	Yes	No			
5.	Is Key Expiry Supported	Yes	No			
6.	Is Date Of Expiry Supported	Yes	No			
7.	Is Algorithm DKGA04 and EA07 Supported?	YES		NO		
8.	Manufacturer confirms that Class2 reserved for propriety use tokens are NOT available on the POS.	Signed:				
9.	Manufacturer confirms that the POS is enabled to generate tokens for all STS manufacturer numbers, and that there is no possibility of excluding any manufacturer number.	Signed:				
10.	State which Utility is Supported	Electricity	Water	Gas	Time	
11.	State which Currency is Supported	Electricity	Water	Gas	Time	

12. Submit the product to the test house.

13. Clearly state if your samples will be collected by your company after the test or if they may be destroyed by the test house. Remember that no tests will be done and no certificates will be issued until payment is made for the certification testing.
